4

children provided with vocational skills training

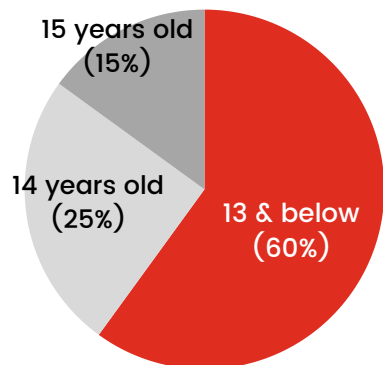

4

mining hubs where The Hub's programme is prioritised

13.3

average age of children in the programme

1

child reunited with their family through The Hub's programme

At 12, Kamia was discovered by The Hub in an orphanage. As part of the child labour remediation programme, she was reintegrated into school while her family received support. The Hub also worked to reunite her with her parents.
